DETAILED ACTION

Response to Arguments

Applicant's arguments, see Remarks pages 1-3 and the amendments to the claims, filed 20 December 2005, with respect to the rejections of all claims under 35 USC 103(a) have been fully considered and are persuasive.

The objection to claim 20 stands withdrawn since that claim was canceled.

The rejections of claims 1-19 under 35 USC 103(a) stands withdrawn in view of applicant's amendments to the independent claims to add the patentable subject matter contained in claim 20.

Therefore, all claims are allowed.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

As stated in the FAOM in this case, the prior art does not teach or disclose combining the first data, the second data, and the duplicate data after creating the duplicate data on a predetermined basis. This method of generating duplicate data and then providing it is specific and does not find a basis in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
